 - o Established FLIPSide Volleyball for more training opportunities in the area
 - o Club coach with ECVC

From this point forward when I say the word **WE**... it means not just me, coaches and players but it truly means **WE. Parents, Teachers, Staff**... It's a collective effort to ensure that this program is successful.

Mission

To provide a safe and exciting environment where young men and women can reach their academic, athletic, and personal potential at North Bay Haven.

Vision

Through the sport of volleyball, we will instill the **FIGHTing** spirit. That through **Family, Investment, Growth Mindset, Humility, and Toughness** we will build a foundation of **young men and women filled with character**, not only for our **school and community**... BUT... if WE (you, me, and this school and community) do it right, **WE will enable these them to excel beyond our city/state/national borders**.

THIS ... is truly our goal... with volleyball as our METHOD.

Program Values

F – Family, Our actions are **centered on family**. That the **collective WE**... the parents, teachers, coaches, staff, and community all contribute to our success.

I – Investment, The greatest impact is not just monetary, but that of Investment in yourself as the player and the team's development. 100% on the court, invest in **physical development through workouts and better nutrition**. **Mental investment needed through the study of the game** but also the letter "G" in FIGHT... and that's a ...

G – Growth Mindset, Individuals who believe their **talents can be developed (through hard work, good strategies, and input from others)** have a growth mindset. Find the fixes and not dwell on the mistake is huge and takes humility to know what it takes to grow...

H – Humility

They **acknowledge they don't have it all together**. ...

They know the **difference between self-confidence and pride**. ...

They seek to **add value** to others and the team ...

They take **responsibility** for their actions. ...

They are filled with **gratitude**

T – Toughness, The US Navy Seals have a saying "Get Comfortable being Uncomfortable." We must have resilience and toughness when we play. We must create a **challenging and success driven volleyball program**. So that when faced with adversity they are comfortable and can execute the impossible because we've trained mentally and physically to think that anything is possible.

A character and resume building program to have a competitive edge for their future.

2026 Additional coaches: Shawna Cabatu, Jordan Wyman, Mell Staiger, Guilherme “Gui” Freitas (Baptist University of Florida Asst. Coach), Pete Taunton

Families make up the final, but most important aspect to a successful year. What I need from you:

1. Active support and participation: Parent involvement, booster club, game attendance, feedback, multi-experienced knowledge in your specialty to better the program. Home game and tournament work is required (door and concessions)
2. Patience... be 1% better daily... incremental changes will lead to lasting effects.

My promise to you: remain dedicated in seeing through our Mission and Vision through early planning, open lines of communication, and maintaining the model of WE not ME in our program.
